

## H.S. Andrews President of Social Centre

J. S. DALY BUYS BLDG. TO AID SOCIAL CENTRE; PREPARATIONS PROGRESS

H. S. Andrews, past president of Abbotsford & District Board of Trade, was elected president of the M-S-A Citizens' Committee, at a meeting held last week in the premises being prepared for a social centre for members of the armed forces. He succeeds Rev. A. J. Loughton who recently accepted a new pastorate at Winnipeg.

Commissioner H. MacFadyen was elected vice-president, the position on the executive made vacant through Mr. Andrews' elevation to the chairmanship. Geo. A. Cruickshank, MP, who was present at the meeting and has provided helpful information in the inception of the organization, was named honorary president.

Good progress was reported on preparation of the Social Centre. It was reported that when the committee found difficulties in the way of acquiring the former Willan hardware store building in its own name, J. S. Daly, well known local business man and veteran of World War I, had purchased the premises and made them available for the duration or as long as required. In addition he had carried out extensive repairs to the foundation and had reroofed the structure.

## \$70.00 MISSING AFTER STRANGER USES TELEPHONE

A few minutes after a stranger had been granted permission to use the telephone in the office of Abbotsford Motors Saturday night, Duncan MacDonald, member of the firm, found that approximately \$70 was missing from the unlocked safe in the office.

While a description of the person who asked to use the phone, but apparently did not, has been given police no arrest has yet been made. In this connection Cpl. G. MacAndrew of the B.C. Police here reiterates warnings to business houses against permitting strangers use of office phones and also of cashing any cheques for strangers.

In the case of Abbotsford Motors, information obtained by the police indicates the stranger had previously made careful observation of the premises before seizing the pretext to use the phone while the garage was short-staffed.

## SENTENCE SUSPENDED FOR THREE MONTHS: ACCIDENT SEQUEL

Sentence was suspended for three months with costs on charges of driving in a manner dangerous to the public preferred against Rosa Atkins and B. S. Sykes, McKenzie road, in Abbotsford police court today. The charges resulted from an accident which occurred about 8 p.m. on July 24 at the junction of McKenzie road and Montvue avenue. Both cars were extensively damaged and Mrs. Sykes sustained a broken arm. In finding both parties guilty and passing sentence, Magistrate Geo. F. Pratt took into consideration the extent of damages incurred by both parties to the accident; lesser damages to the Sykes car being offset by the injury to Mrs. Sykes.

In earlier courts, Carl Lieb of Matsqui was fined \$10 and costs on a charge of dangerous driving; H. G. Fletcher of Sumas was fined \$25 on a charge of intoxication; Maxie Buchanan \$1 for not having suitable lights on a car. Sentence was suspended for three months on a charge of driving in a manner dangerous to the public preferred against Alex Mitchell of Matsqui and he was fined on a second charge of not having a driver's license.

## PIONEER STRICKEN

John W. Taylor, pioneer resident of Mt. Lehman, is a patient in the M-S-A Hospital following a stroke which he sustained on Monday at his home situated on the farm of Harry E. Taylor, a nephew.

• H. S. Andrews.

newly-elected president of the M-S-A Citizens' Committee, the sponsors of a Social Centre in Abbotsford for members of the armed forces.

## MATSQUI COW ONE OF FOUR IN B.C. TO GRADE "EXCELLENT"

16 Head of Paull Holsteins Graded

One hundred and eight Holstein cows and 12 bulls, owned by 14 breeders, were graded for selective registration by Cliff Graham, director of extension of Canadian Holstein-Friesian Association, during a seven-day visit to the Fraser Valley and Vancouver Island.

In order for a cow to be graded "excellent" she must score 90 percent for type. Four animals were put in this class, two for the Fraser Farms at Eburne, one at Colony Farm and one for J. W. Carlson of Matsqui.

Some of the newer breeders in the Fraser Valley to have cattle graded were A. Houstoun of Hatzic, Kel-Berry Farm at Langley, and Seal-Cap Farms at Milner. The Paulls' at Matsqui graded females this year for the first time, having 16 head done.

## 80 TONS, 400 BARRELS, OF RASPBERRIES OFF BROWN FARM TO DATE

Pickers Treated When 80-Ton Mark Hit

From 12½ acres cropping this year, J. Brown's raspberry farm yielded 80 tons or 400 barrels of berries up to Tuesday. When the 80-ton mark was reached, girl pickers were treated to raspberry sundaes.

It is expected the yield will reach close to 90 tons before the season ends.

## LOCAL RATION BOARD MEETS TO ARRANGE ISSUE OF BOOK 3

Members of M-S-A Local Ration Board will meet tonight to make arrangements for the issue of Ration Book No. 3 which will take place Aug. 25-28. It is understood the new book will contain a greater number of coupons than previous issues, in order that the book will cover a longer period of time.

## SLIGHT GAINS IN WAR CERT SALES DURING JUNE

While there was a substantial increase in the sale of War Savings Certificates during June in British Columbia as a whole, only a slight gain was registered in the M-S-A Area. Total here was \$1444, or \$40 more than in May. The total for Mission and district was \$1524 and for Langley and district, including Aldergrove, \$1520. Districts east of the M-S-A purchased: Yarrow, \$8; Sardis, \$2624, and Chilliwack, \$3388.

## WRECKAGE OF CPA AIRLINER FOUND ON CHEAM RANGE

A glistering piece of metal sticking out of the snow on the side of a rugged peak of the Cheam Range some 15 miles east of Chilliwack brought to an end Monday the dramatic search for the Canadian Pacific Air Lines plane missing since December 20, 1942, with 13 passengers aboard.

The piece of metal, sighted by Captain Don Patry, flying a search plane, turned out to be a tail section of the missing craft

## Noted Flier Coming to 24 EFTS

A noted Canadian flier, Squadron Leader H. O. "Hump" Madden, will be the RCAF officer in charge of No. 24 Elementary Flying Training School at Abbotsford Airport, according to information obtained by the A. S. & M. News. A veteran of World War I and subsequently well-known among the famous Canadian "bush fliers," of the north country, Squadron Leader Madden is reported to have rented a home on the Mount Lehman road. His wife and young daughter, Penny Jane, recently arrived in Vancouver from Ottawa.

## Vancouver High School Girl Gives Impression of Life of a Hostel Berry Picker and Notes on Farmers

TWO OF THREE TYPES OF VOLUNTEERS WERE REALLY INTERESTED IN THEIR TASK

By Margaret Pitcairn  
Kitsilano High School

"Pick 'em clean! Look up at the top! Look underneath! Cut out the talk!"

Oh, for the life of a berry picker! To earn lots of money and have lots of fun.

Well, I found out I didn't make much money but I did have fun at the YWCA hostel.

During my four-week stay at two hostels I found that the staffs were always friendly and the hostels were efficiently organized. The supervisor, the assistant supervisor, the kitchen staff and the labor secretary became our special friends.

The latter settled disputes that arose between growers and the pickers.

The kitchen staff were the ones to keep on the good side of, however. First of all, there was the head cook. At one of the hostels our cook had her day off on Thursday. And to the amusement of the staff, every Friday she would hand in her resignation. Before the next Thursday dragged around she had always forgotten about her notice and she decided that we weren't so bad after all. And what a lucky thing for us. Oh, those pancakes and syrup, mmmmm!

And then there was "Beautiful," 4 feet 11 inches of good nature. I nominate her for my "Most Unforgettable Character." All knew when she had made the sandwiches because that was the only time the filling came right to the very edge.

The girls themselves came from all sorts of homes. Most of them were under sixteen and many were only fourteen.

Pay for Education  
Speaking generally, they were of three different types. First of all was the older girl who was up there to make money, usually for education. She was the most desirable one to attract to the hostel, usually being the best worker and the most co-operative member.

The second type was the girl slightly younger, fifteen or sixteen. She was there either because she wanted to see the country and have a different kind of summer, or because she wanted to help relieve the labor situation. She also was a good worker.

One such girl was Carol. When she first decided to go to the hostel, her father asked, "How much is this going to cost me?"

But Carol stayed on until the season closed and proved to her

## EXPECT FIBRE FLAX PULLERS NEXT WEEK

Quality is Praised By Eastern Men

A. C. Stewart, McKenzie road, attended the Fibre Flax Field Day near White Rock last week and is considerably impressed with the prospects of the industry and current crop. Eastern flax men present praised the quality of Fraser Valley fibre flax, finding it better than that grown in the east.

Mr. Stewart has eight acres in flax and expects the pulling machines at his place in about a week. In the meantime he plans to make a quick business trip to California.

## OFFICE ENLARGED

Office space of the Brackman-Ker Milling Co. Ltd. branch in Abbotsford has been enlarged by nearly twice its original size. The job was done by extending the office partition.

father and herself that she could be relied upon.

The third, and unfortunately the most flourishing type, was the girl only just fourteen. Usually up there only for the fun of it, she would work hard for her board the first few days in the week, and having that made, would take the remainder as a private loafing period. She was the type that attracted all the "junior wolves."

These "wolfings" and their "steadies" proved to be a great

(Continued on Page Five)

## OVERSEAS LETTERS ARRIVE IN RECORD TIME BY AIR MAIL

Cyril Holbrow Wishes He Was in Sicily Action

Letters have arrived in the M-S-A Area recently from overseas, some probably in record time. A letter postmarked at Field Post Office in England on Aug. 2 from Sgmn. Cyril Holbrow was received by his parents Mr. and Mrs. C. P. Holbrow, Clayburn, on Aug. 6. It acknowledges receipt of an air mail letter from his parents sent on July 13, and a parcel sent earlier. Cyril says he is really taken with Devonshire and Somerset, but would like to be with the Canadians at Sicily.

Cyril Holbrow

He has observed an increased tempo in the bombing activity from Britain, saying that one time he saw 160 Flying Fortresses heading for Germany "and they made a lot of noise." Cyril has gained 30 pounds since going overseas.

Marked with the date July 27 from the Basic Post Office in England, Mrs. W. J. Callaghan has received a letter from her son, L/Cpl. Ralph Callaghan. It came by ordinary mail and arrived in Abbotsford on Aug. 4.

Miss Hazel Green received a letter on Aug. 9 from her cousin in England, and the Basic Post Office date was Aug. 2.

It is known there are many other local instances of increased speed in mail services from overseas in the past few weeks.

## REGIONAL OFFICE SETTLEMENT BOARD AT ROYAL CITY

Maj. Berner Returns To Duty Shortly

New Westminster has been designated as the location of one of three regional offices of the Soldier Settlement Board of Canada and Veterans' Land Act to operate in British Columbia.

A block of six offices has been leased on the sixth floor of the Westminster Trust Company. As soon as remodelling is completed Thomas Godfrey and his staff, now located in the post office building, will move to their new quarters.

The New Westminster office will look after the territory on the Lower Mainland to a point in the interior yet to be designated.

Major A. Berner, a member of the staff who has been on loan from the government to work on peat operations, is expected to return to the office shortly.

ARP exercises on a province-wide scale are to be held this fall, probably about the end of September. It is announced from provincial headquarters.

## Pte. Roberts Wounded on Sicily Front

OVERSEAS THREE YEARS; EXTENT OF WOUNDS IS UNKNOWN BY PARENTS

Word of the wounding of Pte. Earl Kitchener Roberts, 25, in the Sicily action, has been received by his parents, Mr. and Mrs. Wm. Roberts of Abbotsford.

According to the information received, Roberts was wounded on July 22, but extent of his injuries is unknown yet.

Pte. Roberts is a member of the Seaforth Highlanders of Canada and has been overseas three years.

The wounded man was born in Abbotsford and schooled here. Prior to enlistment he was a member of the staff of Safeway Store here (now Modern Mar-

## FO LISTON ANDERSON, WHOSE WIFE RESIDES HERE, CRASH VICTIM

Brother-in-law Also Missing After Raid

Flying Officer Liston (Slant) Anderson, 32, whose wife resides at Abbotsford, has been killed in a plane crash in Wales, according to official word received here.

Mrs. Anderson is living with her parents, Mrs. G. E. W. Malton. Mr. Malton is stationed at Abbotsford with No. 24 EFTS where he is connected with the postal branch.

FO Anderson, an outstanding member of the Drumheller Miners' senior hockey team before the war, was killed when the plane on which he was navigator, believed to be a Hudson, crashed on July 30. Burial took place in Wales Aug. 4.

Anderson enlisted in May 1941 and before going overseas early this year, was attached to the Ferry Command at Dorval, Quebec.

Mrs. Anderson's brother, FO George Samuel Malton, has been missing since March following a huge raid on Dusseldorf.

Malton, 23, enlisted from Vancouver in May 1941 and went overseas in February last year.

However, hope is held for the young airman's safety. The pilot of a Spitfire, he was engaged with his squadron in an action with the enemy when they were intercepted on the return to the home base. Two Spitfires were lost, but parachutes were seen to billow from both and float to the sea. Mr. and Mrs. Malton hope their son was either picked up by enemy sea patrols in the English channel near France, or was able to reach the safety of a floating lifebuoy.

## ORGANIZERS ADVISE CALF CLUB MEMBERS

Prepare for Fairs

Dan Heelas and Pat Reid, organizers of the Sumas calf clubs, advise the members that all calves still ranging in the fields should be brought under shelter in preparation for training and fitting for Abbotsford and Chilliwack fall fairs. Calves should be blanketed at all times, broken to halter and led daily. They should be fed a liberal ration of grain, hay and green clover.

A field day is being held at Swift Canadian in New Westminster (see page 3 for details) where hot dogs and milk will be served members. Judging of Holstein cattle will take place at Colony Farm. All members interested in attending should get in touch with their organizer.

## HOSTEL CLOSES AND GIRLS GO BACK TO HOMES

Bean Harvest Commences; 35 Pickers Are Registered

After nearly two months of operation on behalf of M-S-A berry growers, the YWCA hostel installed in the high school auditorium at Abbotsford, closed Tuesday night. The remaining 20 girl berry pickers left for their homes at the coast by bus this morning.

Operated in connection with the Dominion-Provincial Emergency Farm Labor Service, the hostel opened on June 22 and at its peak accommodated 68 berry pickers recruited among Vancouver and Vancouver Island students. Hostels at Haney and Mission closed at the end of July but some pickers transferred to the Abbotsford hostel were utilized by Mission growers for several days. The berry harvest is nearing its finish now, being taken care of largely by available local help.

Bean growers commenced their harvest this week and the M-S-A Placement Office has registered about 35 pickers for this crop.

## Cornells for Local Training Use

With the opening of No. 24 Elementary Flying Training School at Abbotsford Airport scheduled to take place in the near future, The News has secured from reliable source the information that Fairchild Cornell II (PT-26) planes will be used in the training of airmen here. Known to enthusiasts as "Corny" the Cornell trainer is just coming into service with the RCAF. It is a low-wing monoplane with closed cockpit and is powered with a 200 h.p. Ranger liquid-cooled in-line engine.

A crew of two is carried in the spacious, heated cockpit. Performance figures are not available on this model, but the 175 h.p. job has top speed of 135 mph; cruises at 120 mph and lands at 48 mph. It has a flight duration of four hours and a climb of 850 feet per minute. Wingspan is 36 feet, length 27 feet 8 inches; height, 7 feet 9 inches; range 480 miles; ceiling, 16,000 feet.

The aircraft is produced by Fleet Aircraft Ltd., Fort Erie, Ont., a subsidiary of Fairchild of Hagerstown, Md., and brings to a close the production of the deHavilland Tiger Moth and Fleet trainers in the British Commonwealth Air Training Plan, but it is understood their production has ceased with the adoption of the Cornell II as an elementary trainer. Moths and Fleets that are at present in use will probably continue in service until supply of Cornells reaches a point where all schools can be equipped.

## The Ontario Election

(The Vancouver News-Herald)

The defeat of the Nixon Government in Ontario is not a surprise. The Provincial Liberals there were long bedevilled by the irresponsible actions of Mitchell Hepburn in his vendetta against Mackenzie King. His retirement was followed by the premiership of Mr. Conant, of Mr. Hepburn's choosing. He, in turn, was supplanted by Mr. Nixon, largely in an attempt to unite the warring Liberal factions. These incidents were not conducive to confidence.

In the result Mr. Drew has not a clear majority, but as leader of the largest group will undoubtedly form a coalition government. How far the result will affect the Federal situation remains to be seen.

The greatest significance of the election is the growing strength of the CCF. From no seats they are now in second place with over a third.

What has happened in Ontario and in British Columbia is prophetic of events to come in Canada generally.

A remarkable feature of the situation is the fatuous complacency of industry, farmers and union labor, whose existence or freedom of ac-

tion is threatened. It is not only private industry which must go when Socialism comes. When the Socialist state is the sole employer, where will be the independence of the labor unions? Th farmers are promised exemption, but for how long? They were promised this in Russia, but the promise was not maintained. It was an impossible assurance in Russia and would be here. Socialism is state ownership and control of the means of production. This cannot effectively operate without the inclusion of the greatest source of production—the land and the farmer.

The future outlook is that the lines will be drawn more tightly and the issues more clearly defined. So far the CCF have been doing most of the "educating." It now behooves those who desire the survival of capitalism and free enterprise more aggressively to present the other side of the picture. With Socialism once launched there is no turning back. If this is what the people really want they will not and should not be deterred. If voting Socialist is only a disgruntled or protest vote, they should well understand where it is leading them. It is time for cool heads and clear thinking.

## The District Nurse

(The Comox Argus, Courtenay)

The Courtenay-Comox district is likely to be no exception to the rule that once a District Nurse has been established in a district she is always maintained. There's every evidence that after a year's work people thoroughly appreci-

ate her services. Epidemics among school children have been cut down, and the attendance at children's clinics, which is quite voluntary, has been doubled during the year.

## Too Many Churches?

(The Christian Herald)

While we are worried about "getting there too late with too little," it might be good for someone to rise and remark that insofar as the number of churches in America is concerned, we got there too soon with too many!

A survey taken in Youngstown, Ohio, is relevant. It was disclosed that one-third of the 1171 churches are superfluous. One half of the churches are growing, one fifth are losing and the remainder are stationary; they show not more than 10 percent change in membership over a ten-year period.

We believe Youngstown is typical. We believe most of our towns and cities are over-church-ed. The writer lived for years in a town of two thousand people; to serve that two thousand potential church-goers there were seven Protestant churches, one Roman Catholic, one

Christian Science and one lunatic-fringe organization irreverently described as Holy Rollers. And any Sunday found more people in that town reading the comic section of the Sunday newspaper than were to be found reading the Psalter.

It can't go on. The many million men who are coming back from the war, having gone to war as Protestants, and occasionally enjoyed the services of a Jewish or Roman Catholic chaplain, are never going to take any interest in a Protestantism that can't make up its mind to pull its forces together.

The job the church has to do calls for a united front. We'll never get it done, if we remain split up as we are now, into 256 separate camps.

## Can the Farmer Do It?

(Kamloops Sentinel)

K. H. Olive, administrator of Dairy Products, Ottawa, has sent out a call to the dairy farmers of Canada to produce more butter. He has pointed out that Canada must have 70 million pounds of butter in cold storage by October 1 next if the present butter ration is to be maintained.

On July 1 Canada had 41 million pounds. This leaves 29 million to be produced in the next three months "in addition" to the regular needs. As ration coupons come good in pairs every two weeks and there are 11,500,000 ration books issued, this means a total monthly consumption of about 24 million pounds of butter per month. Therefore, the Canadian farmer is asked to produce over 100 million

pounds of butter in the next three months. Can he do it?

Cream values are at the highest value in 22 years. A good fresh cow will now bring her owner \$16 to \$20 per month. She will also produce half a ton of skim milk, which will make more eggs and bacon for the boys in uniform.

If there ever was a time for farmers to save every ton of hay or other fodder crops it is now. Further, farmers should take steps to see that every cow is working this fall and winter. This is no time to have duds in the herd. There is the means available through feeding, agriculturists declare, to insure every cow being a worker.

derway on Sumas Prairie, an average yield of 1 1/4 tons to the acre being reported.

August 9, 1933

A total of 224 carloads of varied commodities were exported through Huntingdon port of entry last month, an increase of 25% over last year at the same season.

Dr. Lukas, dentist of Minneapolis, Minn., with Mrs. Lukas and daughter are visiting relatives at Bradner. Dr. Lukas plans to establish in practice in B.C. Miss Gladys York, who has been teaching in Matsqui, has accepted a position at the Upper Sumas school.

Miss Elsie McDonald has joined the local hospital staff. Mrs. Eric Weir, Nurse McPhee and the Misses Nelson left this week on a motor trip to Washington.

The Most Rev. A. U. dePencier, D.D. Archbishop of New Westminster will give the address at the Legion Memorial Service on Sunday.

Abbotsford softballers defeated the North Shore players by a score of 5-4.

## TEN-INCH DAHLIA AND EIGHT-HEADED THISTLE EXHIBITS

Interesting exhibits in The News window last week included a Cactus dahlia bloom measuring ten inches across, and a bull thistle with eight heads on one stock. The unusually large July dahlia was from the garden of Mr. and Mrs. W. Minns, No. 1 highway west of Abbotsford, while the prolific noxious weed was observed and brought in to The News by Mrs. A. Silver of Straiton.

## CAPT. JOS. MAYERS DIES

Captain Joseph Mayers, retired Fraser River captain and businessman, a native son of New Westminster, died Tuesday in the Royal City at the age of 73. A prominent member of the BPO Elks, former member of the Royal City Board of Trade and Harbor Board, he was well known. Two sons are in the forces, Howard in the RCNVR and Wally in the RCAF.

**A WEEKLY EDITOR  
LOOKS AT  
Ottawa**

Written specially  
for the weekly newspapers of Canada

By Jim Greenblatt

Many of us get funny notions about members of Parliament. Sure they make speeches, but after watching them in action here for a while I guess they're just working men like you and me. For instance the other day I was talking with Olaf Hansen, member for Skeena (B.C.). He told me he had lost 14 pounds during the session. The stocky, grey haired son of the Vikings still talks with a delightful Scandinavian accent. His home port for many years was Prince Rupert, that booming, pulsating war baby become adult. Mr. Hansen in 1907 went after the pot of gold at the end of the rainbow, walking the nearly one thousand miles from Edmonton to Prince Rupert through a wild country. He found the gold all right—but in lumber, pioneered and prospered.

This is Ottawa! The other day a huge tank with its long barrelled cannon pointing straight ahead at the traffic, its treads clanking loudly, rumbled along the pavement in front of the Parliament buildings. Incongruous, but it had to stop at the red light. Nobody seemed to pay the slightest attention to this monster of war.

The Prices Board order clamping down on further permits for storage of eggs until later in the year they tell me is primarily to stop speculative profits in storing and handling of eggs. You know Canada has a big job ahead of it this year. The production objective for 1943, according to the Agricultural Supplies Board, is to provide 345 million dozen eggs. Think of that, an increase of 26% over 1942 and 41% over 1941. For domestic consumption they figure over 282 million dozen; a reserve of 11 million. Munitions and Supply estimates it will need 7 1/2 million and the United Kingdom's need will probably be about 63 million dozen. That's cackling for victory in a big way.

The three armed services want to get closer to the folks in the country, whose boys and girls are part and parcel of it. In this connection I attended a conference last week with Director-In-Chief, Public Relations, Armed Forces, J. W. G. Clark, G. M. Brown (R.C.A.F.) and H. G. Howard (Navy) in respect to weekly papers.

In my rounds I also inquired about publication of the Sicilian campaign casualty lists, but find this can't be done for some time yet for security reasons. While one part of the Canadian army is still in one sector, like Sicily, such publication would give the enemy a fine chance to gauge losses, determine disposition, etc. However, when a paper has satisfied itself next-of-kin has been notified, it may refer to an individual. . . . Another interesting thing I was told is that official cameramen have been taking shots of the action in Sicily, these are sent on to London, then to the National Film Board in Ottawa. The people of Canada will be given the opportunity of seeing them through news reels in their local theatres.

You who groan over the mower on your little lawn at home ought to see what the men have to keep in trim around the Parliament buildings. I enquired and found there are about 40 acres of grass to be looked after, and it keeps a number of men working continually day after day. I was surprised to see the absence of dandelions, so pestiferous in some parts of Canada. The Central Experimental Farm here says a pretty effective treatment for them is spraying the infected area with long-time burning oil at the rate of 5 gallons per one thousand square feet of lawn. No other place does one see more beautiful swards of grass and such magnificent trees as in Ottawa.

Odds and ends of the recent Session: The war finance bill which set up a jackpot of \$3,890,000,000 for war purposes passed quickly, but Parliament was concerned with it on forty-four days of the session, so it wasn't even a once-over lightly. . . . the largest single item in the supplementary estimates was \$27,816,000 for wheat reduction acreage bonus and administration of it, as against \$4,265,000 last fiscal year. . . . there was a reduction of 4 million acres seeded to wheat in the three prairie provinces, but that's all covered by increases in oats, barley and flax seed. . . . one of the final debates before the curtain rang down was a bill which increased old age pensions and blind pensions by \$5 a month and under certain circumstances also allowed \$125 outside income without deduction.

A quick glance for folks "out there" on the new order stopping purchase of used tires and tubes without a permit. Rural school teachers get raised rating; rural auctioneers can get them; a new ruling allows a farmer to procure same for passenger car even if he has a truck. Provision is made for certain dentists optometrists who operate branches; also for those employed in breed associations engaged in the control or direction of producing or marketing foods and farm products. A redefined status for those who

## Helping to Solve The Labor Problem AND MAINTAIN PRODUCTION

Increase slightly the mash feed for your good milkers and cut down your herd, culling out the poorer animals. This will maintain your high level of production and at the same time save labor, cost and time.

Full Pail is an ideal summer feed and contains all the essential proteins.

## WAR WORKERS HAVE NO CHOICE!

British Columbia's war work must move on schedule. When one worker is late, it may leave an entire crew in idleness until he joins them. That's why transporting war workers to their jobs on schedule is vital to war production.

War workers have no choice. They must travel at certain times of the day.

Plan to travel by Pacific Stage Lines during the slack hours. Leave the vital rush hours for war workers. This is a sensible patriotic action in these days when transportation facilities are taxed to the limit. It's a small sacrifice to make for increased war production.

## News of the Farms

### EASTERN GROWERS 'VERY SATISFIED' WITH LOCAL BULBS

Two Carloads Bulbs  
Purchased at Bradner

"Bradner bulbs are excellent this year," states W. Van der Zalm, Ontario buyer who has purchased two carloads from the Bradner Bulb Growers' Association again this year. Mr. Van der Zalm added, in commenting to The News on the current crop at Bradner, that he had never seen better bulbs taking the harvest as a whole.

Growers in the east, according to Mr. Van der Zalm, are very satisfied with the Bradner bulbs. Their fame, he says, has spread even to Newfoundland.

One and a half million bulbs have been brought to Bradner this season by Mr. Van der Zalm for planting stock. Two carloads of them have already arrived. This year two growers, Messrs. Paver and Manuel, are experimenting with Iris.

### 'Good Plus' or Better Score Of Holsteins

SELECTIVE REGISTERING  
IN MATSQUI DAIRY HERDS

All animals inspected for selective registration last week by C. D. Graham, director of extension for the Holstein-Friesian Association of Canada, graded Good Plus or better with a high percentage of them in the Very Good class.

Mr. Graham arrived in the Valley on Monday of last week and confined himself that day largely to classifying bulls, starting at Agassiz in the morning and finishing up at Sea Island in the evening. Tuesday he was at Colony Farm, Essondale.

Wednesday was almost in the nature of a Holstein Breeders' field day in the central Fraser Valley, quite a number of dairymen as well as members of the junior calf clubs following the selection work closely. Between 30 and 40 farmers and boys and girls were observers.

The day started at the Houston farm at Hatzic and at the St. Mary's Mission herd. In the afternoon selection was carried on at the Paull & Sons, F. W. Machell and Carlson farms at Matsqui and then Mr. Graham proceeded to the Kelly Logging and Seal Cap farms at Langley.

The rules of selective registration of males and females, issued by the association, provide six classes for the former and three for the bulls. The classes for females are: Excellent—score over 90 points; Very Good—at least 85 percent; Good Plus—at least 80 percent; Good—at least 70; Fair—at least 60; and Poor—less than 60 percent of the scale of points. The female must have freshened at least once and be recorded in the Herd Book of the association.

The three classes for bulls are: Class X—be qualified and score at least 75 percent or be out of a record dam and sired by either a qualified or XX bull; Class XX, and Class X extra.

### Fraser Valley Farm Dates And Activities

Fibre Flax Field Day

A very successful field day was held by the Fraser Valley Fibre Flax Co-operative Association and the Vancouver Local Canadian Society of Technical Agriculturists, on Thursday afternoon, August 5th. An inspection was made of the fibre flax plant and flax pullers in operation in one of the fields near the plant at White Rock.

Speakers included Hon. Dr. K. C. MacDonald, Minister of Agriculture; Hon. E. C. Carson, Minister of Trade and Industry; Dean F. M. Clement, University of British Columbia; Dr. W. Gusow, Dominion Botanist, and Mr. MacKie, Fibre Flax Division, Ottawa; Mr. J. A. Paton, M.L.A., Mr. Fank Brown, Western Canada Cordage Co. at New Westminster, and G. L. Landon, President of Vancouver Local C.S.T.A.

The importance of the flax industry to British Columbia was stressed and much valuable information was given to the flax growers in the Fraser Valley. It was announced that the price for fibre had advanced ten cents per pound.

Junior Club Field Day

Members of the calf, swine, poultry and potato clubs are again reminded of the field day to be held at Swift Canadian Co. plant in New Westminster on Thursday, August 19, commencing at 10 a.m. The afternoon program will be held at Colony Farm, Essondale.

The program will include swine carcass judging, egg candling and grading demonstrations, potato judging, and judging of classes of Holstein cows.

Organizers are requested to advise G. L. Landon, District Agriculturist, of the number of members likely to attend.

Poultry Flock Approval

Approval and blood testing of poultry flocks under the B. C. Department of Agriculture will commence about September 1st. Poultry flock owners who intend to blood test their flocks can secure application forms from the District Agriculturist at New Westminster.

### PRICES GOOD AT DENNIS AUCTION

All prices were good at the Dennis Auction Market on Saturday and a fresh Guernsey heifer, 2 years old, fetched \$135.

Other fresh cows ranged from \$75 to \$130. Beefs cows sold at \$41 to \$84, young stock, \$21 to \$52; bulls, \$53 to \$97; and calves from 25c to \$18.75. ### MARGARET PITCAIRN

(Continued from front page)

joke to the older girls.

It would probably be advisable next year if these younger girls were excluded. Of course, not all 14-year-olds are slap-happy, but for the sake of the serious pickers, it would be better to have made 15 as the minimum age.

#### Enjoyed Farmers

As the girls were interesting to meet, so too, were the farmers and their yarns. Every day on the farm was a new adventure.

We realize a farm has more to it than just hoeing fields and milking cows at odd times.

Take the electric fence, for instance. Now all the time I was on the farm I longed to know just how strong a shock they might give a curious city girl. But I never did find out. 'Guess I'm just a sissy.

And then there were cows. I found the sweetest little calf one day. I thought she was so gentle until when I was stroking the darn thing, she started to eat my blouse away.

#### Growers Considerate

We found the growers very considerate of our wishes. We all felt we had met some very fine people on the farms.

Some, of course, were real characters. There was one that wouldn't allow his pickers to wear sunglasses.

I wanted to explain to him about ultra-violet and infra-red rays but I guess he wasn't the scientific type.

Interesting, too, was the fact that we worked for so many foreign-born Canadians. However, it became rather embarrassing to us at times that we could not always understand their English. If asked a question by one of them, we would glance at each other to see if anyone understood, and failing that, would say, "Oooh, I don't know," and hope we hadn't made a dreadful answer.

#### Figure Earnings

All the girls will go back to school as better mathematicians than they went up. They spend most of their spare time in figuring out how much money they earned, and how much will be taken as board. Five dollars seems a large percentage out of one's pay each week.

However, everyone agrees that she eats every penny's worth. As well as that, she has her laundry done free.

Most of the girls expected to make more money than they did. Many felt that the EFLS had led them to believe they could make more profit than what they actually received.

If the hostel girls did receive less money than those who were batching, they felt it was worth it to have a good place to live, fine food ready for them when they arrived home from work, and someone to stand up for them to the growers to demand the set wage and honest weighing.

The parents, too, were grateful to the YWCA for seeing that their daughters were well taken care of and that they were under adult supervision.

#### Lights Out 10 p.m.

Supervision was not strict. There were certain rules that had to be observed. Everyone was in at 9:30 p.m. and lights went out at 10 p.m. Some of the hostels allowed "late nights" for the older girls. Most of the girls found the rules easy enough to comply with.

#### Goodbye Tears

Those of us who stayed at the school any length of time grew so fond of the community that there were genuine tears when it came time to say goodbye for another year to the friends we had met and the enjoyment we had found in our first working summer.

## Botulism Poisoning Prevalent In Improperly Canned Foods

Contributed by the  
M-S-A Health Unit

When non-acid or slightly acid vegetables such as corn, beans, or peas are preserved by incorrect methods, botulism poisoning may occur.

The bacillus botulinus grows in food in the absence of oxygen and produces a poisonous toxin which causes disease. The name is derived from botulus, meaning sausage, and was named thus because the disease was associated with the eating of sausages. The botulism bacillus is present both in cultivated and uncultivated soil. It may be found on the top of a mountain peak. The toxin of botulism bacillus is the most powerful poison known. It has greater verulence than cobra venom, and is more powerful than strychnine or potassium cyanide. Persons who have tasted suspected food and immediately spat it out have become poisoned with botulism toxin.

The spores or seeds of the bacillus are highly heat resistant, taking five hours to kill. The toxin is less heat resistant and may be killed by ten minutes of boiling over direct heat.

Commercial canning has been perfected to such an extent that botulism poisoning from that

### BOTULISM SYMPTOMS

The symptoms of botulism are muscular weakness, disturbance of vision, loss of ability to swallow or talk, rapid pulse, subnormal temperature, no pain. Onset within 24 to 48 hours after intake of toxin. The symptoms of bacterial food poisoning (common type): sudden onset, a few hours after eating, abdominal pains, bouts of vomiting, diarrhea, sometimes fever. Recovery within 48 hours.

source has not occurred for 20 years. Recent outbreaks have been reported from improperly home canned vegetables. There has been so much enthusiasm about raising vegetables in victory gardens that the enthusiasm will extend to the canning also. Many housewives are truly expert canners, but they use expert methods and stand for no make-shifts. They know how to handle and how to gauge a pressure cooker. They boil sealers and lids and are bacteria-conscious throughout the whole procedure, leaving nothing to chance.

### Precautions in Canning

For those who are not experienced, it is wise to obtain from the Department of Agriculture at Ottawa, a pamphlet published this year, called *War-time Canning*. The canning instructions from the department are prepared and based on scientific experiments in canning. The directions are easy to follow, but there must be no deviation from the rules laid down. If the proper canning equipment is not available, it is wiser to be on the safe side and to use the open kettle method for tomatoes, tomato juice and fruit. Corn and other vegetables may be dried. Sauerkraut and pickles can be made. Preserving in brine is a commendable procedure. Root vegetables may go into pits or cellars and retain their vitamin content well if covered with sandy soil. As an added precautionary measure it is advisable to boil contents of a jar of canned vegetables for ten minutes before the serving.

### Don't Taste Spoils

At all times avoid tasting contents of a jar of vegetables that shows signs of spoiling. Always discard this and bury deep in the ground so as not to infect domestic fowl.

### HARVEY M. STREIGHT RETIRING AS B & K GENERAL MANAGER

With Company Since 1900;  
Rose From Clerk's Desk

Well known to many farmers and businessmen in the M-S-A Area, as he is throughout the Fraser Valley, Mr. Harvey M. Streight, general manager in British Columbia for Brackman-Ker Milling Co. Ltd., is retiring, according to announcement by the company. He will be succeeded by D. J. Grant, former manager Western Canada Flour Mills, Goderich, Ont. Mr. Streight will remain as vice-president and director of the company which he joined in 1900 as a clerk in the New Westminster branch.

### Straiton

C. C. Straiton has spent two weeks with his daughter, Mrs. R. Mander.

Mr. and Mrs. Archie McNeil were recent visitors of Mrs. McNeil's parents, Mr. and Mrs. B. Stewart.

Mrs. C. C. Gardner of Straiton has had her daughter, Mrs. Wampler of Lynden, Wn., with her for two weeks.

Mr. and Mrs. R. Mander entertained relatives from Sumas and Lynden, Wn., and Straiton, twenty-five altogether, recently.

Reta Austin of Vancouver visited with Mary Mathers of Straiton last week, and when she returned home Mary accompanied her.

### Jubilee

Mr. Lingren and daughter of Vancouver, Mrs. C. Hernstedt of Port Moody visited with Mr. and Mrs. M. Susani.

Mr. and Mrs. J. Evanoff have their daughter-in-law, Mrs. R. Evanoff and family of Vancouver.

Mr. B. Evanoff and Mrs. S. Susani left on a trip to Princeton, they were accompanied by Mrs. Susani as far as Hope.

Mrs. T. Day and family of North Vancouver are visiting with her parents, Mr. and Mrs. M. Kuzonski.

Mr. and Mrs. McIntosh visited with Mr. and Miss McCormick during the week.

### CANNING SUGAR

No prospect is in view for an increase of the present allowance of 10 pounds per person, officials said. All canning sugar coupons must be used before September 30.

### COUNTRY EDITOR

Continued from Page Two

use passenger vehicles for 75% or more mileage in transporting produce or supplies to and from the farm, and who own no truck. The order is to conserve dwindling stocks of new tires in Canada. Further information will probably be available at your local dealer who will likely have the detailed order.

Railways appear to be doing a swell war effort job. In June a new record level was reached, according to the Dominion Bureau of Statistics, in freight tonnage hauled. An astounding total of 9,036,000 tons as against 4,277,000 in June, 1939.

Why is the government pushing production of oil bearing seeds? To keep the Canadian boys punching over there. Four pounds of the lowly sunflower seed produce a pound of oil; a bushel of flax yields about 18 pounds of oil, while soy beans give about 8 pounds per bushel.

Had a letter, saying: "Give us a little news for women". So I took a stroll down to the Consumers Branch of the Wartime Prices Board and said "How about it?" Got talking about the rural women in relation to price control and rationing. Found that representation of rural women in Consumer branch committees is taken seriously. For instance when it came to granting extra rations for temporary farm help, their wishes were really considered. Arrangements have been made for farm women to obtain extra rations, whenever they serve 12 meals or more. To further ease their problems of meal planning, rural residents owning their own herds are granted special privileges under meat and butter ration.

Now that the Ontario election is over it may be said that nobody seemed to be very excited about it in Ottawa during the campaign. The man on the street seemed to have little to say about it, from what I could perceive.

The one-way disc when operated at from 3 1/2 to 4 miles per hour, requires less power per acre than any other deep tillage machine. At 3 1/2 miles per hour, stony land may be one-wayed without undue breakage of the disks.

### GARDEN TIPS

from  
T. Preece, Bradner

Carrots: Sow early Nantes or Horn in a warm corner for use in spring.

Celery: Earth up as required.

Chervil: May be sown for succession.

Corn Salad: May be sown for winter use.

Endive: Sow seed now; plants big enough should be tied up to bleach.

Angelica: Sow as soon as the seeds are ripe, cover lightly.

Balm: Gather for drying; propagate by cuttings now.

Borage: Sow for late use.

Broccoli: Plant out late crop and water often.

Brussel Sprouts: In cold northern locations sow now and plant out in spring.

Cabbage: The principal sowing should be this week.

### Flower Garden

Gather lavender and everlasting flowers, also gypsophila and dry for winter use.

Pay attention to staking and tying all plants against strong winds.

Lawns need constant attention to keep them in shape, trim the edges. Flower beds should be tended; weeds, dead flowers and leaves removed in order to keep the garden looking its best.

## Keep Your Ford Tractor Contented

• Your FORD TRACTOR will keep working well for you 'til the war is over and new ones are available—if you keep it in good repair. Like stock, to get the best out of it, it must be in prime condition. There are myriads of little things you can do yourself to keep it working well, but bring it in occasionally for a check-up.  
• We are FORD dealers, so we naturally know our product. That is why you should bring your tractor here for

### MAINTENANCE AND REPAIRS

# VITAMINS

... Sparks of  
Life in Nutrition

IT IS A SCIENTIFIC FACT that neither human beings nor animals can live without certain vitamins. When concentrated vitamin preparations are prescribed in deficiency conditions, the improvement in health is quite often so immediate that we are tempted to regard these substances as being magical. But it is wrong to think of them as having strange powers to give health and "pep" far beyond normal. Vitamins permit use of food factors.

#### HOW VITAMINS WERE DISCOVERED

The first stirrings of progress came with the realization that scurvy, rickets and beriberi were caused by unbalanced diets. Certain limited diets were unsatisfactory because they did not contain vital elements essential to health and well-being. Discovery that certain other foods did contain these elements was the second step. The problem was to make them easily available in the diet.

#### VITAMINS AND THE AVERAGE DAILY DIET

We know vitamins are indispensable to normal nutrition... requirements may vary with different persons. An insufficient daily supply of any vitamin for a prolonged period will result in an abnormal condition. Under a physician's care the deficiency will respond to adequate intake of the lacking vitamin.

#### CARELESSNESS IS OFTEN A CAUSE

Nearly everyone is guilty at times of hurried, light meals simply to save time. Such carelessness may in time contribute to inadequate vitamin supplies.

#### THE NEED FOR "EXTRAS"

Even if the amount of food consumed is sufficient, the balance may be incorrect. So-called energy foods, containing little or no vitamins, very frequently make up too great a part of the diet, and the protective, vitamin-containing foods form too small a part. Many people, children especially, dislike certain foods. Thus they may ignore foods which are the rich sources of certain protective vitamins.

## BABIES PARADE, MOTHERS BEAM AT NOVEL TEA PARTY

Home Nursing Diplomas  
Awarded to Graduates

All dressed up in the nicest frocks, there were many babies with their mothers and friends at the Babies' Tea Party held under auspices of the Abbotsford Auxiliary of the Red Cross at the home of Mrs. T. Bennett on Wednesday afternoon. During the party prizes were distributed to babies winning the most votes.

For the prettiest baby under 12 months, the prize went to Barbara Jill Cornborough, with Eileen Ellis, Mansell Hamby and Sharon-Ann Akins all tying for a close second. In the age group from 12 to 24 months, the prettiest little girl was Emily Cowan, and the best looking boy was Larry Greene. Prizes for the curliest headed baby and for the baldest baby went to Marellyn Bonas and John "Skipper" Irvine respectively.

The event netted the Red Cross approximately \$65, \$20 of which came from a drawing. The prize, a night lamp, was won by Mrs. W. S. Hill-Tout.

During the afternoon, president H. E. Beeston introduced Mrs. De Satge, commandant of the Red Cross Corps for B.C., who presented Red Cross Home Nursing certificates to nearly 20 graduates. In the Mt. Lehman class which was instructed by Mrs. C. Savitsky, certificates were presented to Mesdames L. B. Farber, Mary E. Harvey, Isobel M. Moxon, Laura M. Ryder, Myrtle A. Cherry and Dorothy E. Taylor. Aberdeen graduates were Mesdames Mary Henry, Doris Swenson, Arleen Orwick, J. K. Gledhill, Tryphena Middleton, W. A. Denny and E. J. Gladwin, with Mrs. Andy Jackman as instructor. Mrs. B. Thomson instructed the Abbotsford class and those receiving certificates were: Mesdames Annie Groat, L. E. Gentry, Audrie E. Sands, Clara M. Smith and Miss Elizabeth Neufeld.

Tea was served from individual tables under the trees, and each table was centred with a miniature garden for a centerpiece. Mrs. Paul Chevalley and Mrs. R. T. Gilmore had charge of tea arrangements and Mrs. Bennett was hostess.

MISS I. SAVITSKY  
IS SHOWER HONOREE

A miscellaneous shower was held on Saturday evening in the United church at Mt. Lehman in honor of Miss Irene Savitsky, whose marriage to Mr. Thomas Rabbitt of Tullameen takes place on Aug. 15.

The decorative scheme was mauve, pink and white, the

## Follows Father as C.P.R. Vice-President

Eric A. Leslie (left), newly appointed vice-president and comptroller of the Canadian Pacific Railway Company, is carrying on a family tradition in that high position for his father, John Leslie (right), was vice-president and comptroller of the company from 1926 until 1928 at which time he became vice-president of finance and treasurer, a position he retained until 1932 when he retired after more than half a century of railway work. The new vice-president

and comptroller is 48 years old and has been associated with the company for 30 years. His record was broken by attendance at McGill University on a Canadian Pacific scholarship and three years overseas service in the Great War as a lieutenant with the Canadian Artillery. He won two medals as a student—the Governor General's Silver Medal at Montreal High School and the British Association Medal in transportation at McGill University where he graduated from the Faculty of Applied Science.

## ENTERTAINS FORMER EDMONTON FRIENDS

Mrs. R. L. Minter entertained at an "Edmonton" tea on Wednesday afternoon in honor of her guests, Mrs. T. More and Mrs. A. H. Lewis. Among those present were, Mrs. Burgar of New Westminster, Mrs. Shepherd of White Rock, Mrs. Kushner, Mrs. W. H. Davidson, Mrs. Liscum, and Mrs. Henderson of Abbotsford district, all formerly of Edmonton, and Mrs. A. C. Matthews.

## CHURCH SERVICES IN M-S-A AREA

Items under this heading contributed by Church officers. Must be received by 5 p.m. Monday.

#### Christian Science

Christian Science services are held each Sunday morning at 11 in the lodge room of the Orange hall, Abbotsford. The public is cordially invited.

#### Trinity United Church

Sunday school at 10 a.m., regular services at 11 and 7:30 p.m. Rev. G. R. Tench in charge.

#### Anglican Services

Sunday, Aug. 15, the Eighth after Trinity, services at St. Matthew's, Abbotsford, will be, 8 a.m., Holy Communion; 7:30 p.m., Evensong and sermon. At St. Margaret's, Bradner, 11 a.m., Matins and sermon.

The midweek service of Holy Communion and Intercession for those in the forces will be held at St. Matthew's on Wednesday, Aug. 18, at 9:30 a.m.

#### Upper Sumas Baptist

Aug. 15: Sunday school at 10 a.m. Regular service 11 a.m. with Misses Spain and Elliott as guest speakers. Picnic lunch and a get-together will follow the service.

#### Church of the Nazarene

The church extends a cordial invitation to attend its services under the leadership of the pastor, Rev. A. E. Petersen. On Sunday, Aug. 15, 11 a.m., he will speak on "Look Unto the Fields" and at 7:45 p.m. he will use for his subject "The Second Coming of Christ." Sunday school 10 a.m. Straiton unified service convenes at 2:30 p.m.

#### William A. White

Funeral services were held in Vancouver for William Alexander White of Clayburn who passed away in Mission Memorial Hospital on Aug. 2. Rev. George Hacker officiated and interment took place in the Ocean View Burial Park. Deceased was in his 77th year. He is survived by two sons, J. Arthur White of Telkwa, B.C. and William S. of Green-shields, Alta.; two daughters, Mrs. C. Weber of Vancouver and Mrs. F. H. Sten of Ukiah, Calif., and one brother, George R. White of Parsons, Kansas.

bride's angel food cake was centred on a table decorated with white tapers in pink and mauve holders. The bride-to-be sat in an archway of white wedding bells and streamers. She was assisted when opening the beautiful gifts by Miss Sonia Savitsky and Miss Jean McDonald.

An amusing feature of the evening was the reading of "Advice to the Bride," contributed to by each lady present. Dainty refreshments were served by intimate friends of guest of honor.

For essential valley travel, the B.C. Electric operates its Interurban train freight and passenger service between Vancouver—Chilliwack and way points. In these times, travel should be cut to the absolute minimum. But when travel you must—do it during the week rather than week-ends when traffic is heaviest. You'll help yourself to better accommodation and be complying with the Transit Controller's request.

Complete timetables can be had free  
from any B.C. Electric freight or  
passenger agent.

### LEAVES COMPANY AFTER 18 YEARS

Frank McCallum of Abbotsford who for the past 18 years has been connected with the Imperial Oil agency in Abbotsford, has acquired a grocery-confectionery in Vancouver and will be leaving the district this month.

Mr. McCallum came to the district in 1909 and served overseas for two years in the last war with the Seaforth Highlanders.

Mr. and Mrs. McCallum and family say they will be anxious to see their friends after they go to Vancouver, their store being located at 16th and McDonald.

### With the Forces

Pte. Jean Rennie, CWAC, Kamloops, is home on furlough.

Tpr. George Borg of Camp Borden is home on leave.

Word has been received by Mrs. Carl Harvey that her husband, Gnr. Carl Harvey, RCA, has arrived safely overseas.

Gnr. Wallace Ostrom has returned to the coast after spending a few days with his mother. Pilot Officer Ray H. Green, is spending his leave in the district with relatives.

Pte. James Tereposky was at home from the Pacific coast to spend the weekend with his parents, Mr. and Mrs. A. Tereposky.

Bdr. Stewart Stein has been invalided home from overseas after three years there. He has been staying at the home of his brother, Dan Stein.

John Tereposky, overseas with the Canadian army, has undergone an operation for appendicitis, according to word received by his parents.

LAC Chas. Gustafson and Mrs. Gustafson of Vancouver spent the weekend at Pine Grove.

Pte. A. Pearson spent his furlough with his father at Pine Grove.

Jean Cowin, CWAC is at her home in Pine Grove on leave.

Valentine McDonald is in Abbotsford visiting his relatives.

Pai Rochon, RCNVR, is home on 28 days' leave.

Gnr. Bert Mathers was home last week after completing first training period.

B.C. men in the RCAMC who arrived overseas with a general hospital unit included Pte. Ernest Jacobson of Matsqui.

Tom Calvert, RCA, has arrived overseas, according to word received here. He enlisted in February this year.

### PARTY HONORS AIRFORCE MEMBER

remustered to Aircrew

To honor LAC Michael Mustowy, No. 24 BRIS, who has remustered for aircrew and will go to Edmonton for training, a surprise party was held at the home of Miss Peggy Mullin on Friday evening. The evening was spent in swimming at Mill lake, boating and games. Refreshments were served, and a cake decorated with "Happy Landings" was cut.

On behalf of the guests, all members of local softball teams, the guest of honor was presented with an RCAF writing set and eversharp pencil.

Guests included: Sgt. Lagacy, Sgt. Reid, Cpl. Griffiths, LAC P. Gregory, LAC H. Stickney, LAC J. McGinnes, LAC J. Anderson and LAC F. Meads; Carl Carlson, T. Woods, H. Jackson, and B. Lamont, all RCN; Misses Mary Stein, Jennie Donaldson, Violet Hay, Mary Trimmell, Irene Kearsley, Margaret Smith, Marie Tessaro, Rene Gentry, Joan Gentry and Mrs. T. Akins.

### THANKS FOR RELIEF

The last shipment of clothing for Greek relief sent from the Red Cross headquarters in Abbotsford was acknowledged with the following note from Provincial headquarters: "Nicely made, beautifully packed, thank you."

### NEW CTA SCHEDULES

G. H. Thornberry of the Milk Records Branch, Department of Agriculture, Victoria, was in the Area on Friday in connection with proposed changes in the Cow-Testing Association schedules in the Area.

# LIVABILITY PLUS

in a well-kept home  
REMODEL OR REPAIR

---- but do it now!

• In these troubled days, the comforts of home are more appreciated than ever before. But are you getting all the comfort possible out of your home? Aren't there many small things you have been intending to repair that will give you that "extra bit" in enjoyment and relaxation? Write them down, go over the list carefully so there will be no unnecessary spending, then start right in and get the jobs done. Be sure to get the best lines available when you are purchasing the necessary material, and the place for that is DALY'S

Nothing adds to a room more than well-chosen Wallpaper...

• Handsome is as handsome does, and the things a handsome wallpaper (both quality and design) can do for a dingy room can only be imagined—until the paper is applied. Don't put off any longer doing your rooms over. Come in today for a showing of our bright new patterns. The prices are right.

HARDWARE DEPARTMENT

for OUTDOORS and INDOORS

A quality paint, that can be depended upon for the desired result. A paint for every purpose, and all the accessories for painting.

PROTECT  
with Good  
ROOFING

### BUILDING PAPER

Just as the part of the roof that faces the weather must be "tops" so should the paper underneath. It is an insulant as well as a life-extender. See our lines before you do that job.

### INCIDENTALS for the HOME

• Besides keeping your home in good repair, do not forget the thousands of things that are used every day in routine. Take a look at our fine small-goods counter and see the selection of the little things. You will be reminded of the things you have been intending to replace.

LINOLEUMS and other FLOOR COVERINGS

• Save the floors of your home with one of our new floor coverings. The selection is complete and they are economy-wise buys.
